

COUNTERMEASURES®

RISK ANALYSIS PRODUCTS & SERVICES

Offering solution tools and training for various security areas or customized variants to fit your needs

CounterMeasures® is the preferred risk assessment tool used throughout the U.S. military, government and industry to identify, quantify and manage your organization's vulnerability and risk. Its unique methodology can help you meet government risk assessment standards and compliance. Contact us for a free demonstration and training.

General Applications

Physical Security - Facilities

- Module addresses typical tenant and commercial environments.
- Federal Emergency Management Agency (FEMA) standard.
- U.S. General Services Administration (GSA) standard.
- U.S. Department of Justice (DOJ) standard.
- U.S. Coast Guard Maritime Security (MARSEC) Part 105 standard.
- Anti-Terrorism/Force Protection (AT/FP) standard.

**Know your risk—
identify, quantify and
manage your risk**

Information Assurance

- National Institute of Standards and Technology (NIST) Special Publication 800-53, Recommended Security Controls for Federal Information Systems.
- Integrating industry best practices.
- Ascertain information security posture: Enables assessment and incident reporting to identify malicious, procedural and process issues including insider and outsider threats.

HII is a global, all-domain defense provider. HII's mission is to deliver the world's most powerful ships and all-domain solutions in service of the nation, creating the advantage for our customers to protect peace and freedom around the world. As the nation's largest military shipbuilder, and with a more than 135-year history of advancing U.S. national security, HII delivers critical capabilities extending from ships to unmanned systems, cyber, ISR, AI/ML and synthetic training. Headquartered in Virginia, HII's workforce is 44,000 strong. For more information, visit: HII.com.

- One year support including upgrades, enhancements
- Ability to create customized security datasets
- Ability to analyze individual or group surveys

Physical Security Variant

Securing your physical environment is an essential step to ensure the continued operational performance and security of your facilities. To counter the ongoing threats of theft, terrorism, assault and damage or destruction of key assets, HII offers the CounterMeasures® Physical Security Variant.

Cyber Security Variant

Securing your computer and network environments is an essential step to ensure the continued operational performance and security of your IT systems. HII offers the CounterMeasures® Cyber Security Variant to conduct and analyze assessments of your cyber and IT systems.

CounterMeasures® Chemical Assessment Tool (CCAT)

The chemical industry's infrastructure is essential to the nation's economy and security, but gaps in security and other risks can have extreme consequences. To counter the ongoing threats of theft, terrorism and damage to key assets, HII offers CCAT.

Interagency Security Committee (ISC)

CounterMeasures® supports the Interagency Security Council (ISC) Risk Management Process (RMP), consistent with executive orders to support assessments of all buildings and facilities in the U.S. occupied by Federal employees for nonmilitary activities.

Intellectual Property Security

Securing your intellectual property is an essential step to ensure the continued operational performance of your company. The CounterMeasures® Intellectual Property Security Variant provides a consistent and technically sound methodology to identify, analyze, quantify and communicate risk to your proprietary data and intellectual property.
