

## Barry Polakowski

---

Senior Director, Specialty Engineering  
Mission Technologies

Barry Polakowski is the senior director of HII's Specialty Engineering team, which is part of the Warfare Systems group in HII's Mission Technologies division. This team comprises cleared hardware, software and research engineers who solve some of the hardest and highest-classified challenges the U.S. government encounters.

Polakowski is responsible for research, development and operational microelectronics reverse-engineering programs, and his team performs many quick-reaction capability efforts across multiple customers.

Prior to supporting the U.S. government, he designed and developed telecommunications equipment and test hardware for leading industry suppliers.

Polakowski earned a bachelor's degree in computer engineering from Virginia Polytechnic Institute and State University (Virginia Tech) in 1999.

HII is a global, all-domain defense provider. HII's mission is to deliver the world's most powerful ships and all-domain solutions in service of the nation, creating the advantage for our customers to protect peace and freedom around the world. As the nation's largest military shipbuilder, and with a more than 135-year history of advancing U.S. national security, HII delivers critical capabilities extending from ships to unmanned systems, cyber, ISR, AI/ML and synthetic training. Headquartered in Virginia, HII's workforce is 44,000 strong. For more information, visit: [HII.com](http://HII.com).
