

## Lisa Izumi

---

Senior Director, Engineering  
Chief Technology Office  
Mission Technologies

Lisa Izumi is a senior director of engineering at Hill's Mission Technologies division. She works in the Chief Technology Office, architecting and developing advanced mission systems and System of Systems (SoS) solutions for DoD customers.

Prior to joining Hill in 2024, she served as director of corporate strategy at Booz Allen Hamilton. She also worked for 18 years at Lockheed Martin—most recently, as deputy lead of the SoS engineering team.

Izumi is a recognized thought leader with a focus on integrated business and technology strategy, technical and program leadership, and cross-functional/cross-domain collaboration. She is a subject matter expert in SoS and AI systems engineering with experience across the full program life cycle.

Izumi earned a bachelor's degree in physics from the University of Colorado and a master's in physics from Binghamton University. She is pursuing a PhD in modeling and simulation at Old Dominion University.

Hill is a global, all-domain defense provider. Hill's mission is to deliver the world's most powerful ships and all-domain solutions in service of the nation, creating the advantage for our customers to protect peace and freedom around the world. As the nation's largest military shipbuilder, and with a more than 135-year history of advancing U.S. national security, Hill delivers critical capabilities extending from ships to unmanned systems, cyber, ISR, AI/ML and synthetic training. Headquartered in Virginia, Hill's workforce is 44,000 strong. For more information, visit: [Hill.com](https://www.hill.com).
